MAGAZINE

## FEATURES LIST 2019

### SPRING

#### TRACEABILITY

A variety of important drivers such as ethical sourcing and food safety all depend on effective traceability. We take a look at the latest logistics solutions and track and trace systems to support 'farm to fork' traceability.

#### WATER MANAGEMENT

In farming and snacks production, water use is under increasing scrutiny as weather patterns change. How can our industry help conserve this precious resource?

#### PLANT PROTECTION PRODUCTS

Everyone understands that the use of plant protection products must remain under review, but what are the practical challenges that any recent restrictions raise and what are the likely next developments?

#### WEIGHING

From weighing ingredients to multi-head weighing into packs, these technologies impact each stage of snacks production.

#### PROFILE

### SUMMER

#### SNACKEX preview

We look forward to the only European event dedicated solely to savoury snacks and try to predict what's in store in Barcelona.

#### FRYING

Oil management, energy efficiency and acrylamide mitigation are just some of the considerations around optimising frying operations.

#### FOP

With the Nutriscore system gaining ground and recent research from the European Commission to consider, we take a look at the latest developments in front-of-pack.

#### SORTING

Today's sorting technologies can be game-changing in terms of yield and quality.

#### PROFILE Spain

### AUTUMN

#### SNACKEX REVIEW

Missed it? Don't miss out with our round up of events at the European savoury snacks industry's big get together.

#### THE B-WORD

How is BREXIT impacting on British snack makers and suppliers, as well as their Continental neighbours?

#### FUTURE FLAVOURS

From changing consumer preferences to new capabilities, we look at how snack flavours are evolving.

#### HOT AIR

Whether you're popping pellets or drying extruded snacks, hot air is the key.

#### EUROPEAN SNACKS REPORT

What's hot and what's not? We look at some of the biggest trends and drivers shaping the savoury snacks markets across Europe in recent months.

### WINTER

#### INSPECTION SYSTEMS

Metal detectors, x-ray system, seal testers - everything you need to ensure a perfect packaged product.

#### UCPD AND DUAL QUALITY

Where are we now on the contentious issue of alleged variable product standards around Europe?

#### THE RISE AND RISE OF OWN LABEL

Once considered the domain of cheap and cheerful 'me too' products, own label is now far more than that.

#### WASTE PREVENTION

Apart from delicious savoury snacks, what else is your facility producing and how can you minimise unwanted by-products?

#### PROFILE

## PLUS ...

*regular news sections in every issue*
